Remark:
1. The unit should be indoor, and make sure the enough space for operation and service.
2. The equipments should be connected with water pipe, power supply and refrigeration pipeline, according to our instruction.
3. No account according to our standard, others is subject to design.
4. This drawing is only for you reference, delivery range is subject to contract.
5. The unit is with SUS304 base.

Technical parameter:
- Water inlet temp: 25°C
- Ambient temp: 40°C
- Refrigeration capacity: 6.05kW
- Production capacity: 1.07/24hr
- Power supply: 380V/50Hz/3P
- Refrigerant: R406A
- Installation power: about 5.4kW
- Water consumption: 4.2L/h
- Running weight: About 450kg
- Exterior size: 1180x1100x875
